Jerry Grillo

Legal Fund for Humanitarian Parole

This benefit is an urgent appeal to raise legal funds for Helaman Iquique who was deported in 2009 after living in the USA for 25 years to escape genocide in Guatemala. Supported by several members of the Senate and Congress, Helaman's appeal qualifies for refugee status. His hearing was not held because of deportation. Separated from his life partner of ten years, Helaman risks kidnapping, extortion and death threats while an American émigré exiled in Guatemala.
